

Beds and Furniture Overview

Building upon a 100-year tradition of quality and innovation.

- Our premium bed – the Encore – combines many of these time-tested features with leading edge technology into a superior long-term care bed. (page 32)
- The same proven marks of quality are evident in the five beds of the Q-Series. (page 35)
- To further enhance the caregiving environment, we offer a broad selection of dependable furniture including bedside nightstands, over-bed tables, chests, and more. (page 41)

Bed components are precision-welded for strength and durability and are individually powder-coated with a durable, flexible polyester finish.

All beds are fully mobile and lockable at any height for ergonomics and safety and protect walls by rising/descending virtually straight up and down.

A vascular foot rest, designed with easy-to-operate ratchet, efficiently elevates legs without propping with pillows.

Our warm, molded 3-position assist rail locks at right angles to the bed protecting caregiver and resident – optional for Encore and some Q-Series.

Optional dollies make transportation in and out of room easy. Simplifies preventative maintenance and repairs by providing easy access to all bed components.

A sturdy floor level bumper bar is standard on the Encore. Soft honeycomb roller bumpers (pictured) are standard on most Q-Series and optional on the Encore.

Choice of 6 finishes and 8 headboard profiles

Standard Melamine Profiles

Elite HPL Profiles
